

Each NEBB Certified Professional (CP) and Certified Technician (CT) is required to complete their own recertification submission to ensure compliance with NEBB's certification standards and ethical requirements. The recertification process includes a series of acknowledgements and attestations that each individual must personally review and agree to. These statements confirm that the certificant understands and accepts the professional responsibilities, code of ethics, and continuing education requirements associated with maintaining NEBB certification.

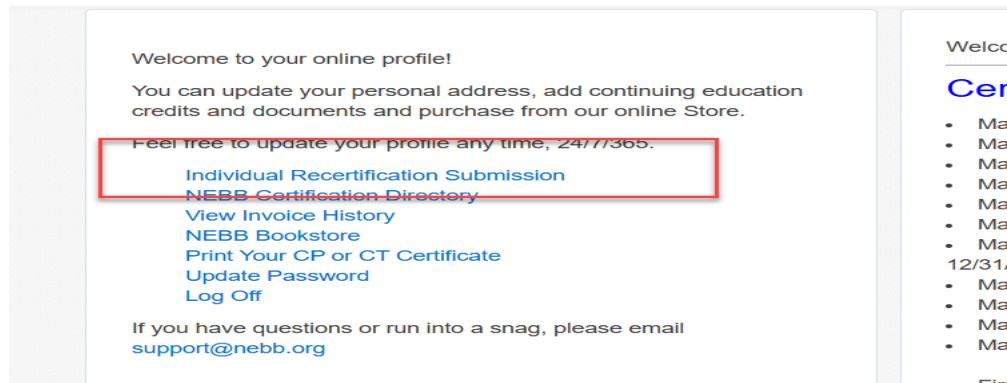

These acknowledgements are legally and professionally binding; they cannot be completed on behalf of another individual. This process protects the integrity of the NEBB certification program and upholds the credibility of all NEBB certificants.

NEBB INDIVIDUAL ANNUAL CONTINUING EDUCATION CREDIT (CECs) GUIDELINES FOR THE 2026 RECERTIFICATION CYCLE

Per the NEBB Operational Procedures, in order to maintain certification, all NEBB Certified Professionals and Technicians must submit NEBB-approved Continuing Education Credits (CECs) and pay annual certification fees.

Each NEBB Certified Professional (CP) and Certified Technician (CT) is required to complete their **own** recertification submission to ensure compliance with NEBB's certification standards and ethical requirements. The recertification process includes a series of acknowledgements and attestations that each individual must personally review and agree to. These statements confirm that the certificant understands and accepts the professional responsibilities, code of ethics, and continuing education requirements associated with maintaining NEBB certification.

These acknowledgements are legally and professionally binding; they cannot be completed on behalf of another individual. This process protects the integrity of the NEBB certification program and upholds the credibility of all NEBB certificants.

CEC Requirements

- Certified Professionals must submit 6 NEBB-approved CECs
- Certified Technicians must submit 3 NEBB-approved CECs

Please Note: Effective now, starting for the 2026 recertification cycle, only NEBB-approved CECs will be accepted. Non-NEBB CECs will no longer be eligible for recertification.

Dual Certification Holders

If you hold both a Professional-level and a Technician-level certification, you must complete **separate recertification submissions** for each level via your NEBB online profile. These are distinct certifications and require individual submissions.

Important Dates

- Recertification cycle opens: August 1, 2025
- Approval deadline: December 31, 2025
- Late fees assessed: Beginning January 1, 2026, for unapproved or incomplete submissions
- Suspension: Beginning April 1, 2026, for unapproved or incomplete submissions
- Decertification: July 1, 2026

CEC Submission Guidelines

- CECs must be earned between January 1 – December 31, 2025
- Each certificate of attendance must include:
 - Course date(s)

- Course content or description
 - CECs awarded
- Incomplete documentation will be returned for correction.
- CECs earned after December 31, 2025, will **not** be accepted for the 2026 cycle
 - CECs **cannot** be carried over to future recertification cycles
 - Individuals may not **reuse** any course that has been previously submitted for NEBB recertification. A course that has been applied toward a past recertification cycle is considered ineligible for further use, regardless of whether the course has been retaken or the completion date falls within the current recertification period. Each course may only be applied once toward meeting NEBB's CEC requirements.
 - While CECs can be earned year-round, uploading begins August 1, 2025, once the cycle opens
